

PROFESSIONAL GUEST HOUSE LOCUM SERVICES

new in Port Elizabeth

Do you own an Accommodation Establishment and need a well-deserved break from time to time?

*Nic and Sharon are available to assist in your absence so that you don't need to close your business.
We would be delighted to look after your establishment, long or short-term.*

For most of our careers we have been involved in various Travel and Tourism industries including Hotels, Guest Houses and Restaurants. We have managed on behalf of owners as well as owned our own small businesses through which we gained an integral understanding and passion for the business.

We know the importance of guest satisfaction. Each of your guests will be made to feel welcome from the moment they arrive until the moment they leave. Any request, big or small will be given priority at all times.

We are competent, mature and cope well under pressure and adjust well to the routines at your establishment. We are both computer literate and our skills include, but are not limited to, booking procedures, guest relations, catering, staff management and we are both fluent in English and Afrikaans and Nic is literate in Greek.

We are available individually or as a couple for short to long term locum/relief work, i.e. over weekends, for a few days or weeks and our services include on-site stay-overs or coming in daily.

Once you have decided on your dates, we will meet with you to discuss your requirements and spend some time with you at your establishment to get an overview of your operations and meet with your Staff.

REFERENCES AND CREDENTIALS

Lizette & Andre, Owners – Chez Paris: *"One of our guests said when Sharon and Nic were running our Bed and Breakfast for us, that we should not come home?? This speaks volumes as we already have many well-loved repeat guests who were very happy to be cared for by Sharon and Nic. Outgoing, friendly and caring folk who make guests comfortable and feel at home very easily. We were totally relaxed while away as they handled all and anything that was required"*
